- Items supplied: bedroom furniture (beds, mattresses, headboards), televisions, rangehoods, ovens, hobs, laundry appliances, fridges, toasters, kettles
- Brands included: LG, Big Save, Panasonic, Omega, Kambrook, Robinhood.
- Project Value: \$24m

**“We needed a one-stop-solution to fit out the interior of our development - offering a wide product selection of top brands, through to delivery and installation on site.”** - Chris Sutherland, General Manager, Clarke Group

## Creating an efficient, one-stop-solution with Noel Leeming

When Chris Sutherland, General Manager of Clarke Group began the Chapel Studios development in East Auckland, he was looking for a company who could offer a one-stop-solution to provide the fittings from start to finish.

Noel Leeming Commercial supplied bedroom furniture, televisions, rangehoods, ovens, hobs, laundry appliances, fridges, toasters and kettles - in short, everything that you would expect to see in a home. To make the whole process seamless and efficient for Clarke Group, Noel Leeming's team of professional installers delivered and fitted out everything within each studio. Televisions were mounted on walls, ovens and kitchen appliances unpacked and installed, washers were connected up, and beds fully assembled. Once everything was in place, the team then disposed of all rubbish and packaging, saving Clarke Group hours of staff time and disposal costs.

Alongside this, Noel Leeming Commercial's dedicated project manager worked with the team at Clarke Group to ensure that they accomplished their vision for the studios.

“Noel Leeming is proud to be a “one-stop-shop” provider. This means we not only offer a wide range of products, but also a range of services as well. We pride ourselves on offering a tailored service and creating long-standing relationships with clients by partnering to deliver to their needs. This is evidenced by the fact that Mr Sutherland has continued to engage Noel Leeming for other large-scale Clarke Group developments across Auckland, with another five even larger sites already underway.” - Rayan Jay, National Project Manager, Noel Leeming Commercial
