The A-Z of Apps

We've put together an alphabet of some of our favourite apps and Chromebook tools, designed to help educators create more engaging lessons, and encourage students to learn in fun new ways.

A is for Apps
Give your students unlimited possibilities. Visit the Chromebook App Hub and discover apps designed with learning in mind.

B is for Book Creator
A simple tool for creating digital books. Make your own teaching resources or let students take control and create their own bestsellers.
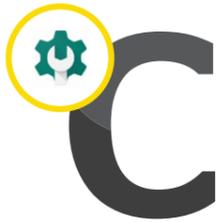

C is for Chrome Education
Manage Chromebooks more efficiently by using this simple, cloud-based device management console – so you can focus on teaching, instead of IT.

D is for Data Studio
Turn your data into informative, easy to read, customisable dashboards and shareable reports.

E is for Edpuzzle
This easy-to-use tool lets you create engaging video lessons by adding questions, comments, audio and images into online content, such as YouTube, or videos that you have made.

F is for Forms
Create surveys, assessments and self-marking quizzes, share with students or parents, then track the data using the Google Forms app.

G is for Google Classroom
Simplify how you work. Save time and paper, easily create your classes, distribute assignments, communicate with students and stay organised.

H is for Hapara
Real-time visibility of students' online browsing activity means you can increase your effectiveness, and help them adopt Digital Citizenship principles.

I is for Infinite Painter
Free your students' inner artist. With Infinite Painter they can create beautiful designs from their mobile devices.

J is for Jamboard
Encourage your students to learn, collaborate and engage in fun new ways with this interactive online whiteboard.

K is for Kai's Clan
A cloud-based programming environment where students collaborate and learn through AR, VR, coding and robotics.

L is for Loom
Make video easy and fun to use. Record and finish your video with just a few clicks and publicly share it online in an instant.

M is for Minecraft
A game-based learning platform that promotes creativity, collaboration, and problem-solving in an immersive digital environment.

N is for Noteflight
The ideal platform for teaching music composition and theory. Students can compose music, record live audio, and get automatic performance assessment.

O is for OrangeSlice
Increase your productivity and present a professional scored rubric for each of your students.

P is for Parlay Ideas
A discussion-based learning tool with a global community of educators who are reimagining class discussions for the 21st Century.

Q is for Quizlet
Use Quizlet's free study sets, study modes and in-class games to instantly create a more engaged classroom.

R is for Read&Write
A range of powerful support tools to help your students gain confidence with reading, writing, studying and research, in a way that suits their abilities and learning styles.

S is for Sphero Edu
Create, contribute, and learn with Sphero robots. Your students can go beyond code by incorporating unique STEAM activities to complete with their bots.

T is for Thinglink
Thinglink is a technology platform that makes it easy to augment images, videos, and virtual tours with additional information and links.

U is for uBlock Origin
Help students to stay focussed and speed up their online browsing experience by filtering online content, and blocking those annoying pop up ads.

V is for Virtual Meetings
Use Google Meet for video meetings and online classes. With Jamboard whiteboard integration and features such as 'hand up', students can interact and let you know if they need any help during lessons.

W is for WeVideo
An easy-to-use video creation tool that's accessible from anywhere. Whether students are learning in person, remotely or in a blended setting, WeVideo lets them create, collaborate and express themselves.

X is for New Tab Page
Using this start up page on their Chromebooks makes it easier for students to organise and navigate their top websites and open their favourite Chrome apps.

Y is for Yamm
A Gmail merge tool designed to help users create, send and track personalised email campaigns, newsletters or forms to multiple recipients, without needing to to write HTML.

Z is for Ziteboard
A zoomable online whiteboard for real-time collaboration on any desktop or mobile device. Ziteboard enables you and your students to visualise ideas, design together, and improve tutoring sessions.
