

iPad in the Early Years Classroom

Kia ora, you're invited!

More than ever, educators are using iPad to create interactive, engaging experiences in the first three years of primary school. iPad empowers young students to express themselves in creative ways, tell their own stories of learning and nurture curiosity and wonder.

Join us to explore the transformative power of iPad in the early years through Everyone Can Create, a program from Apple designed to help unleash the creative potential in every student through photography, video, music, and drawing with iPad. In these sessions, you'll get hands-on with some of the music and drawing lessons.

Over two virtual sessions you will:

- Explore how students can use drawing skills to become authentic authors, engaging learning across the curriculum
- Discover how iPad can bring learning to life by creating soundscapes and music
- Get hands-on with iPad, and leave with ideas you can start with in your classroom tomorrow

Topics covered over the two 60 minute virtual sessions

19 August	Drawing with iPad
26 August	Music with iPad

Ngā mihi nui,

Apple NZ Education Team

TM and © 2021 Apple Inc. All rights reserved.

Who should attend

School leaders/Tumuaki and educators of New Entrants to Year 3, school support staff and technical administrators

Engaging Primary Learners with iPad

Kia ora, you're invited!

Educators in the primary classroom are using iPad to create interactive, purposeful and engaging experiences for their learners. iPad inspires creativity, encourages collaboration and challenges learners to solve problems with their own unique talents.

Join us for this live rerun to explore the transformative power of iPad in the years 3-6 primary classroom. Over two virtual sessions you will explore the built-in features on iPad and education apps to support the development of literacy and numeracy skills.

Literacy with iPad 29 July Live rerun session

Tristan Bancks returns to explore how iPad and education apps extend and enhance your students' reading and writing skills. Discover how iPad supports your students to better understand text and increase their engagement in their writing process.

Numbers with iPad 5 August Live rerun session

Explore how iPad and the Numbers app can extend and enhance student numeracy skills, with a specific focus on financial literacy. You'll walk away with everything you need to plan and deliver an integrated unit of work focusing on money.

Reimagining Learning for Today's World

Intermediate & Secondary Educator Workshops

Kia ora, you're invited!

To succeed in today's world and to shape tomorrow's, secondary students need to tap into their creative potential and learn to express themselves in new and innovative ways.

Join us to discover how the built-in features of iPad help students make connections to content through creativity. From drawing and annotation, to music and video, these hands-on sessions delve into the creative potential of iPad and Apple Pencil to enable new ways for students to think and learn in the secondary classroom.

Choose from a collection of three, three-part workshops commencing in Term 3.

Infuse Creativity into Literature with iPad

Commencing Monday 16 August

Cultivate Inquiry in History with iPad
