

UGEE For Education

UGEE Solutions for Education

As teaching pedagogies constantly evolves to meet the needs for education, UGEE's suites of education solutions provides the necessary experiences for both educators and learners.

UGEE Technology provides in EMR-based digital handwriting products and applications.

Its pen displays and pen tablets offer a complete interactive teaching approach.

Classroom Teaching

Interactive pen displays for teachers that connect to a computer or laptop, it allows teachers to create dynamic and engaging lessons, increase engagement and improve student's learning experience.

- Connects easily to other classroom devices including wall mounted displays, laptops, projectors, document cameras and more
- Allow teacher to annotate freely and accurately in showing student the solution
- Enables teachers to face the class while presenting, giving students a clear view of content as well as maintaining eye contact during lessons

Online Teaching

Disruptions to teaching, such as during time of pandemic and natural disaster, have prompted educators to rethink on how to provide continuous teaching. Teachers can use a pen display or tablet to create interactive content by writing or annotating directly on digital files and share them live on the screen. The lessons can then deliver to student remotely, provide learners with an alternative and still achieving the outcome.

- Connects easily to laptop or desktop computer
- Allow teacher to annotate freely and accurately in showing student the solution
- Writing tablet is light and portable, thus allowing the teachers to conduct the class remotely from anywhere.

Remote Learning

The learning experience is even more powerful when students also have a pen display or tablet at home. Student would be able to see the thought process that forms the solution, annotated in real time, is extremely helpful. In addition, they could also work out their answer interactively with teachers and fellow students.

- Connects easily to laptop, desktop computer and Android mobile phones
- Allow students to write accurately when interacting with teacher
- Writing tablet is light and portable, thus allowing the student to attend class remotely from anywhere.
